VEGETABLE SEED

U. S. Department of Agriculture.

### MUSTARD SPINACH

Frankly, we feel confident that if you give your trade just the slightest chance of becoming acquainted with **MUSTARD SPINACH** you will soon realize it to be one of the fastest selling items you have handled.

It is so easy to demonstrate, just ask for a trial sample—plant it—and after three weeks, still in time for this season's business, ask your customers to look at it. Show them the beautiful crop, tell them when you planted, how little care it commanded, and you will make sales. Ask for that sample today.

20c per lb.

\$17.00 per 100 lbs.

Special prices on larger quantities.

## FOR IMMEDIATE SHIPMENT

All our offerings are of high germination, the Japanese varieties grown by T. Sakata & Co., others by the most reliable European growers.

per lb.

### BEET

Detroit Dark Red .....	\$.28
Crosby's Egyptian .....	.28

## SAKATA'S FOLIAGE TURNIP

Seed of Sakata's Foliage Turnip planted during the hottest, driest August showed unbelievable ability to germinate and get started; even the weakest seedlings came through splendidly. This is one reason why we recommend this turnip so highly, others are — Sakata's Foliage Turnip is louse proof;—it carries its heavy foliage erect, the tender greens come off fresher and cleaner than from any other turnip variety;—it forms a perfect pure white bulb, just a little flatter than Purple Top, but ever so much sweeter and finer grained;—the tops are succulent and produce bigger crops than Seven Top. Practical trial will prove every one of these claims and convince you that SAKATA'S FOLIAGE TURNIP is the best for Southern planting for both roots and tops.

This Turnip is of Japanese origin. To preserve all the valuable characteristics enumerated we grow all the seed we sell in Japan, for seed reproduced domestically under new environments has not proven itself fully satisfactory.

Price per lb. 25c f. o. b. New York.
